INDEX TO VOLUME XXXVII

Page numbers preceded by "(P)" refer to the summaries of symposia and papers at the Meetings of the (British) Thoracic Society or other bodies. "(E)" refers to editorials.

A

Abscess formation in intrathoracic goitre, case of, 556
Acinic cell tumour, diagnosis of apparently carcinoid tracheal tumour by electron microscopy as, 97
Actinomycosis of trachea involving right supraclavicular region, case of, 861
Aerosols, ipratropium bromide and fenoterol, effects in pulmonary emphysema, 667
  pressurised, for salbutamol administration in chronic asthma, comparison with intermittent positive-pressure breathing, 612
  pressurised, modified, nebulisers, and IPPB, beta-agonists given in chronic stable asthma by, comparison of responses to (P), 788
  therapeutic, delivery of, efficiency of jet nebulisers in (P), 788
AFSCHRIFT M, NACHTEGAELE P, VOET D, NOENS L, HOVE W VAN, STRAETEN M VAN DER, VERDONK G: Puncture of thoracic lesions under sonographic guidance, 503
AGNEW JE, BATEMAN JRM, PAVIA D, CLARKE SW: Radioaerosol and ^{81m}krypton assessment of regional ventilation in asymptomatic asthma (P), 235
AGUSTI-VIDAL A. *See* ROCA J, GRAÑEÑA A, *et al*
Air, cold, bronchial response to, evidence for different mechanism in normal and asthmatic subjects (P), 787
  crescent sign of invasive pulmonary aspergillosis in acute leukaemia, 3 cases with, 554
  inflation, postmortem radiography of excised lungs during, accuracy in assessment of pulmonary emphysema, 906
Airflow limitation, chronic, opiate sensitivity in (P), 780
  obstruction. *See* Airway obstruction
  resistance and dynamic compliance as functions of respiratory frequency, measurement influenced by hypocapnia?, 212
Airway beta-blockade, partial, asthma due to? (P), 779
  disease, fatal, in adult with chronic graft-versus-host disease, 77
  epithelium, mast cells in, with evidence for smoking-induced changes in frequency, 334
  narrowing, chronic, susceptibility of smokers to (P), 232
  narrowing, localised, in sarcoidosis, 443
  obstruction, acute, in children under 5 (E), 641
  obstruction, breathlessness in, improvement by dihydrocodeine (P), 228
  obstruction, chronic, blood lactate levels and respiratory muscle fatigue in (P), 781
  obstruction, chronic, carbimazole and exercise tolerance in, 64
  obstruction, chronic, compliance with therapy in patients with (P), 778
  obstruction, chronic, endogenous opiates and control of breathing in, 834
  obstruction, chronic, "irreversible", response to inhaled salbutamol (P), 232
  obstruction, chronic, nebulised salbutamol and ipratropium bromide in, bronchodilator efficacy of (P), 789
  obstruction, forced expirogram in, total effective time of, error and correction factor in, 304
  obstruction in atopic asthma during bronchial challenge with *Dermatophagoides pteronyssinus*, site of (P), 230
  obstruction, oral steroids in, evaluation of efficacy (P), 232
  response to salbutamol during regular inhalations in normal, atopic and asthmatic subjects, 282
  responses to bronchoconstrictor agents in normal subjects, time-dependent effect of inhaled prostaglandin E_2, 438
  responsiveness to histamine, control of (P), 230
  small, response to histamine, measurement of, partial and maximal expiratory flow-volume curves for (P), 231
  smooth muscle beta-receptors, role in histamine responsiveness in asthma (P), 237
  smooth muscle, normal, dual effect of prostaglandin E_2 *in vivo*, 918
Airways, large and small, comparison of effects of histamine H_1- and H_2-receptors (P), 779
AL-DAMLUJI S, DICKINSON CM, BECK A: *Enterobacter agglomerans*: a new cause of primary pneumonia, 865
AL-HABET S. *See* MCALLISTER WAC, THOMPSON PJ, *et al*
ALLEN P. *See* LARRIEU AJ, HASHIMOTO SA, *et al*
Allergen, dual response to, and platelet-activating factor (P), 787
Allergic alveolitis, extrinsic, and other pulmonary fibroses, inspiratory 'squawk' in, 923
Alpha-1-antitrypsin. *See* α_1-Antitrypsin
Altitude, high, pulmonary veins in residents at, morphometric study of, 931
ALVAREZ P. *See* ROCA J, GRAÑEÑA A, *et al*
Alveolar and pulmonary vascular development in tetralogy of Fallot, with recommendation for early repair, 893
  macrophages, role in neutrophil migration to lung after acute asbestos exposure, 803
  oedema, development and reversal, relation to homeostatic mechanisms in lung (E), 713
  radiographic pattern in pulmonary sarcoidosis, 448
  soft-part sarcoma, 877
Alveoli, radial count (Emery-Mithal) method, reappraisal of, in assessment of intrauterine and early postnatal lung growth, 580
  radial count (Emery-Mithal) method, reappraisal of, in assessment of postnatal lung growth, 572
Alveolitis, allergic, extrinsic, and other pulmonary fibroses, inspiratory 'squawk' in, 923
  assessment by bronchoalveolar lavage and gallium-67 in pulmonary sarcoidosis, comparison with serum angiotensin-converting enzyme, 19
  fibrosing, cryptogenic, larger bronchi in, morphometric study of, 828
  role in interstitial lung disorders (E), 1
AMBROSINO N. *See* TABONA MVZ, AMBROSINO N, *et al*
Aminophylline, intravenous, and nebulised ipratropium bromide after salbutamol in treatment of acute severe asthma (P), 785
AMOUROUX J. *See* BATTESTI JP, SAUMON G, *et al*
Amyloidosis, cardiac, with asymmetrical septal hypertrophy and deterioration after nifedipine, 711
Anaesthesia, general, intravenous, with oxygen Venturi ventilation, rigid bronchoscopy under, 532
ANDERSON G, PEEL ET, CHEONG B: Marrow toxicity of VP-16-213 when combined with other cytotoxics in lung cancer and prevention of this effect (P), 234
—, —, —, BRODERICK N: Comparison of oxitropium bromide and ipratropium bromide in asthma (P), 783
—. *See also* PEEL ET, ANDERSON G, *et al*
ANDERSON PB, GOUDE A, PEAKE MD: Comparison of salbutamol given by intermittent positive-pressure breathing and pressure-

packed aerosol in chronic asthma, 612
ANDERSON N. *See* COCKCROFT A, SEAL RME, *et al*
ANDREW K. *See* KEANE PM, KAY JM, *et al*
ANEVLAVIS E. *See* JORDANOGLOU J, HADJISTAVROU C, *et al*
ANGEL JH. *See* SOMNER AR, ANGEL JH, *et al*
Angioedema and small-cell carcinoma of lung, case of, 950
Angiotensin-converting enzyme activity in lung in rats with pulmonary hypertension, 198
enzyme and β_2-microglobulin, serum activity in sarcoidosis, 936
enzyme, role in pulmonary vascular disease in rats with monocrotaline pulmonary hypertension, 88
enzyme, serum levels, and bronchoalveolar lavage in evaluation of sarcoidosis, correlation with gallium-67, 11
enzyme, serum levels, comparison with bronchoalveolar lavage and gallium-67 assessment of alveolitis in pulmonary sarcoidosis, 19
ANISIMOWICZ L. *See* GORCZYNSKI A, TRENKNER M. *et al*
Antidiuretic hormone secretion, inappropriate, syndrome of, and status asthmaticus, 147; (*Letter*), 872
Antigen, bronchoconstriction induced by, effect of nifedipine (P), 787
late asthmatic reactions induced by, mechanism of (P), 230
α_1-Antitrypsin deficiency, patients of Pi phenotypes Z and SZ with, pulmonary emphysema in, comparison with patients of normal phenotype (P), 782
deficiency, pulmonary emphysema in, radiological features of (P), 233
Aortic prosthetic valve, Björk-Shiley, dehiscence of, two-dimensional echocardiographic features of case of, 540
stenosis, congenital, management of, 902
valve, incomplete commissure of, case of, 636
valve, quinticuspid, causing aortic valve incompetence and stenosis, case of, 542
valves, porcine, leaflet coaptation, effect of glutaraldehyde fixation pressure and valve constraint, 620
valves, porcine, sucrose preservation for, morphological assessment and comparison with storage in nutrient and antibiotic medium, 466
Apnoea during sleep and glaucoma, familial, new syndrome of?, 845
during sleep, protriptyline treatment of, 49
Argon laser treatment of case of tracheal rhinoscleroma, 638
ARMSTRONG JD, GLUCK EH, CRAPO RO, JONES HA, HUGHES JMB: Lung tissue volume estimated by simultaneous radiographic and helium dilution methods, 676
ARMSTRONG JG, STEELE RH: Localised pulmonary arteritis in rheumatoid disease, 313; (*Letter*), 954
Arthritis, rheumatoid, pleural effusions in, chemical and immunological features of, in comparison with other diseases, 354
Asbestos and dust content of lung in E. Anglia, 185
exposure, acute, neutrophil migration to lung after, role of alveolar macrophages in, 803
Aspergillosis, pulmonary, invasive, in acute leukaemia, air crescent sign of, 3 cases with, 554
Aspergillus spp, saphrophytic invasion of infarcted lung tissue by, 5 cases of (P), 228; 693
Asphyxia, fatal, in case of pendulating endobronchial rhabdomyosarcoma, 390
Aspiration biopsy, percutaneous, and bronchoscopic biopsy in diagnosis of bronchial carcinoma cell type, 462
ASSOUFI B. *See* NAGAKURA T, LEE TH, *et al*
Asthma, acute, bacteria, viruses, and sputum cytology in (P), 235
acute, severe, prediction of rapid and slow response to treatment in (P), 239
acute, severe, treatment with intravenous aminophylline and nebulised ipratopium bromide after salbutamol (P), 785
asymptomatic, regional ventilation in, radioaerosol and ^{81m}krypton assessment of (P), 235
atopic, airway response to salbutamol during regular inhalations in, 280
atopic, site of airflow obstruction during bronchial challenge with *Dermatophagoides pteronyssinus* in (P), 230
beta-adrenoceptor function in skin and lung in, comparison of (P), 237
bronchial, chronic, sputum in, ciliary inhibitory effect of, 646; *Erratum*, 955
bronchial reactivity in, measurement of (*Letter*), 400
bronchial response to cold air in patients with, evidence for different mechanism as compared with normal subjects (P), 787
bronchial responsiveness to histamine in, relation to diurnal variation in peak flow rate, improvement after bronchodilator, and airway calibre, 423
bronchial, steroid (prednisolone) resistance in (P), 782
bronchoconstriction induced by sulphur dioxide in, mechanisms of, 118
chronic, morbidity from, 218
chronic, salbutamol administration in, comparison of intermittent positive-pressure breathing and pressure-packed aerosol methods, 612
chronic, severe, management by high-dose inhaled terbutaline, comparison of wet nebulisation and tube-spacer delivery, 300
comparison of oxitropium bromide and ipratropium bromide in (P), 783
control, assessment of (P), 238
due to partial beta-blockade of airways? (P), 779
dysphonia after corticosteroid inhalation in, laryngeal abnormality as cause of (P), 782
histamine responsiveness in, role of airway smooth muscle beta-receptors in (P), 237
induced by exercise and hyperventilation, neutrophil chemotactic factor in (P), 787
induced by exercise, effects of lignocaine, analysis of, 741
induced by exercise, effects of lignocaine, sodium cromoglycate, and ipratropium bromide, 737
induced by exercise, histamine and circulating basophil levels in (P), 788
induced by exercise, inhibition by oral mast-cell stabiliser (M&B 22,948), trial of (P), 783
induced by exercise, sodium cromoglycate in, dose-response study of, 663
induced by exercise without respiratory heat loss, case of, 630
induced by hyperventilation, evidence for two different mechanisms in, 657
ipratropium bromide in children with, 72
late reactions induced by antigen in, mechanism of (P), 230
mediator release in, effect of propranolol (P), 237
nocturnal, breathing, bronchoconstriction and sleep stage in (P), 238
occupational, due to colophony fumes, follow-up of electronics factory workers with, 348
occupational, in hairdressing salon (P), 229
occupational, in steel coating plant, population study and identification of cause (P), 229
onset after cessation of cigarette smoking, 9 cases of (P), 786
perception of, and coded peak flow measurement (P), 780
regional lung function in, effect of acute and long-term bromchodilator treatment assessed with krypton-81m and technetium-99m-labelled macroaggregates, 516
response to inhaled prostaglandin E_2 in, effect of chronic beta-adrenergic agonist (salbutamol) treatment, 430
stable, chronic, beta-agonists given by nebuliser, IPPB, and modified pressurised aerosol in, comparison of responses to (P), 789
with induced bronchoconstriction, bronchodilator effect of deep inspiration in, 124
See also Status asthmaticus
Atelectasis, shrinking pleuritis with, 252
Atopy, airway response to salbutamol during regular inhalations in, 280

as factor in susceptibility of smokers to chronic airway narrowing (P), 232
bronchoconstriction induced by inhaled histamine and metacholine in, effect of sublingual nifedepine (P), 230
Atrial thrombi, diagnosis by ultrasound, 507
Atrium, left, catheter in, addition of sodium metabisulphite to infusates for prevention of bacterial colonisation of catheter tip, 142
left, catheter in, isolation of bacteria from catheter tip cultures, technique for, 145
left, myxoma of, with extensive calcification, 224

carcinoma, resection for, tumour on bronchial stump after, value of radiotherapy for, 496
carcinoma, small-cell, combination chemotherapy and radiotherapy in, trial of (P), 778
carcinoma, small-cell, high-dose cyclophosphamide and autologous bone marrow transfusion as initial treatment for (P), 783
carcinoma, squamous cell, coexisting with granular cell myoblastoma, case of, 392
challenge with *Dermatophagoides pteronyssinus* in atopic asthma, site of airflow obstruction during (P), 230
gland dimensions in coalminers, influence of smoking and dust exposure, 760
reactivity in asthma, measurement of (*Letter*), 400
response to cold air, evidence for different mechanism in normal and asthmatic subjects (P), 787
response to inhaled histamine, effect of pH, 133
response to respiratory heat exchange, inhibition by increasing doses of terbutaline sulphate, 913
responsiveness to histamine in asthma, relation to diurnal variation in peak flow rate, improvement after bronchodilator, and airway calibre, 423
responsiveness to histamine, long-term stability of, 288
Bronchioloalveolar tumour, intravascular, cases of, 472, 474
Bronchitis, chronic, breathlessness and exercise tolerance in, effect of naftidrofuryl, 617
chronic, definition of (P), 228
chronic, pituitary fossa in, radiological changes in, 512
chronic, slow-release metoprolol in (P), 789
development of, childhood and retrospective or prospective long-term studies (E), 401
obstructive, chronic, and pulmonary hypertension, cardiopulmonary function in, early effects of intravenous terbutaline, 746
obstructive, chronic, sputum sol phase proteins in, effect of bromhexine (P), 234
Bronchoalveolar lavage and gallium-67 assessment of alveolitis, comparison with serum angiotensin-converting enzyme in pulmonary sarcoidosis, 19
lavage and serum angiotensin-converting enzyme in evaluation of sarcoidosis, correlation with gallium-67, 11
lavage findings in interstitial lung disease in hard-metal workers (P), 781
lavage in lung transplantation (P), 790
Bronchocentric granulomatosis, progressive, case in Britain, 947
granulomatosis, review of 14 patients (P), 779
Bronchconstriction, breathing and sleep stage in nocturnal asthma (P), 238
induced by antigen, effect of nifedipine (P), 787
induced by exercise, mast cells and basophils in (P), 788
induced by sulphur dioxide in normal and asthmatic man, mechanisms of, 118
induced by sulphur dioxide, protective effect of drugs, 671
induced in atopic subjects by inhaled histamine and methacholine, effect of sublingual nifedepine (P), 230
Bronchoconstrictor agents, airway responses in normal subjects to, time-dependent effect of inhaled prostaglandin E_2, 438
Bronchodilator effect of deep inspiration in asthma with induced bronchoconstriction, 124
efficacy of nebulised salbutamol and ipratropium bromide in chronic airflow obstruction (P), 789
treatment, acute and long-term, effect on regional lung function

in asthma assessed with krypton-81m and technetium-99m-labelled macroaggregates, 516
Bronchogenic carcinoma, BCG immunotherapy after surgical resection in, 5-year results, 57
carcinoma in Northern India, 343
Bronchography with oily propyliodone (Dionosil), early pulmonary reactions after (P), 229
Bronchopleural fistula, pneumonia, and pneumatoceles, acute respiratory failure from, high-frequency jet ventilation in case of, 558
Bronchoscope, fibreoptic, flexible, in diagnosis of sputum-negative pulmonary tuberculosis, 598
Bronchoscopic and percutaneous aspiration biopsy in diagnosis of bronchial carcinoma cell type, 462
Bronchoscopy, fibreoptic, cytological diagnosis of lung cancer at, comparison of catheter aspirates and brush biopsies for, 457
fibreoptic, for lung cancer, cytological sampling at, comparison of catheter aspirates and brush biopsies (P), 234
fibreoptic, plasma lignocaine levels during, 68
fibreoptic, with multiple bronchial biopsies, effect on diagnostic yield in bronchial carcinoma, 684
rigid, under intravenous general anaesthesia with oxygen Venturi ventilation, 532
